SUBJECT: "indiscriminate" dumping at Werdin Dump (WD)

I talked with Richard Brausch about the description of "indiscriminate" dumping of waste in 1950 and 1953 near the WD. Mr Brausch said that the information in the Los Angeles Department of Public Works file (where the information regarding the indiscriminant dumping was found) indicated the waste was strictly garbage.

Mr Brausch said that WD is listed with the State Water Boards Calderon Bill. (They will be looking at landfill sites.)
